EDUCATION

Anil Neerukonda Institute of Technology and Sciences

Bachelor of Technology in Information Technology. CGPA-8.80

Vishakapatnam,AP

December 2021 - April 2025

Sri Chaitanya Junior College

class XII(State Board of Andhra Pradesh. Score:934/1000

Vishakapatnam,AP

April 2019 - March 2021

Bhashyam Public School

class X(State Board of Andhra Pradesh. Score:9.8GPA

Srikakulam,AP,

June 2018 - March 2019

TECHNICAL SKILLS

Programming Languages: Java,HTML,CSS,JavaScript,SQL.

Libraries and Frameworks: React, Spring framework, SpringBoot,

Concepts: Database Management System, Data Structures, Operating System, Computer Networks.

WORK EXPERIENCE

Java Developer Intern

Cognizant Technology Solutions

June 2025 - August 2025

- Completed a project titled "Insurance Policy Management System," a web-based application developed using Java, Spring Boot, and SQL. The system streamlines insurance operations for both administrators and customers. Key functionalities include secure user authentication, policy creation and assignment, premium calculation, and renewal alerts. RESTful APIs ensure efficient data handling and integration. Administrators can manage policies and monitor status, while users can register, view, and manage their insurance details. The project enhances accuracy, reduces manual effort, and improves user experience through automation and a clean interface. It demonstrates strong backend development, API integration, and database management skills

Salesforce Developer

SmartBridge

May 2024 - June 2024

- Completed a Salesforce Developer internship, gaining hands-on experience in Apex programming, Lightning Web Components (LWC), and Salesforce platform customization. Learned to design and implement workflows, triggers, and data models while optimizing CRM solutions for business processes.

PROJECTS

- Resume Builder** Created a web application for generating resumes using PHP as the backend is a useful project that can help users create professional resumes easily. [GitHub](#)
- Tic-Tac-Toe** developed a React Tic-Tac-Toe project which is likely involved creating a user interface where players can click on cells to make moves, with the game logic determining the winner or if the game ends in a draw. [GitHub](#)
- Online Shopping Cart** Developed an Online Shopping Cart website using React.js for the front end, Node.js and Express.js for the back end, and MongoDB as the database. The application supports user authentication, product management, and seamless shopping experiences. [GitHub](#)

CERTIFICATIONS

- 2-Day Competitive Programming WorkShop In GDSC.
- NPTEL Data Structures Using Python.
- NPTEL Data Structures Using Java.
- Participated in a 4-Day WorkShop and 24 Hour Hackathon on Amazon Web Services.

ACHIEVEMENTS

- Achieved 200 Days Badge 2024 in Leetcode.
- Accomplished problem solver with a track record of successfully trackling over 450+ leetcode challenges.
