EDUCATION

Anil Neerukonda Institute of Technology and Sciences

Bachelor of Technology in Information Technology. CGPA-8.80

Vishakapatnam,AP

December 2021 - April 2025

Sri Chaitanya Junior College

class XII(State Board of Andhra Pradesh. Score:934/1000

Vishakapatnam,AP

April 2019 - March 2021

Bhashyam Public School

class X(State Board of Andhra Pradesh. Score:9.8GPA

Srikakulam,AP,

June 2018 - March 2019

TECHNICAL SKILLS

Programming Languages: Java, HTML, CSS, JavaScript, MySQL

Libraries and Frameworks: React, Spring Framework, Spring Boot, Spring MVC, Spring Security

Tools and Platforms: GitHub

Concepts: Database Management System, Data Structures, Operating System, Computer Networks

PROFESSIONAL EXPERIENCE

Programmer Analyst Trainee

Cognizant Technology Solutions

Hyderabad

June 2025 - August 2025

- During my internship at Cognizant as a Java Developer, I gained practical experience in backend development using Java and Spring Boot, API integration, and SQL database management. I improved my understanding of secure authentication, Agile methodologies, and version control with GitHub, while enhancing problem-solving and collaboration skills in a professional environment

Programmer Analyst Trainee

Cognizant Technology Solutions

Chennai

September 2025 - Present

- Working full-time on the U.S. Ba-ACAPS Core (Feb 2024) project, developing and maintaining a secure, scalable enterprise application using Java, Spring Boot, Spring MVC, Spring Security, and Spring Data JPA with MySQL integration. The project involves building robust backend services with authentication and authorization to manage sensitive data effectively, delivering core functionalities aligned with business and regulatory requirements, while collaborating closely with cross-functional teams to ensure high-quality software solutions.

PROJECTS

- Insurance Policy Management System** Developed a secure and efficient web application using Java, Spring Boot, Spring MVC, Spring Security, Spring Data JPA, and MySQL. The system features authentication and authorization for role-based access control, with seamless database integration for managing insurance policies, customers, and premiums through a user-friendly interface. This project highlights expertise in building scalable, secure, and maintainable enterprise applications.
- Tic-Tac-Toe Game** Developed an interactive Tic-Tac-Toe game using HTML, CSS, and JavaScript. Designed a responsive user interface allowing players to make moves by clicking cells, with game logic to determine wins, draws, and turn-based play.
- Online Shopping Cart** Developed an Online Shopping Cart website using React.js for the front end, Node.js and Express.js for the back end, and MongoDB as the database. The application supports user authentication, product management, and seamless shopping experiences.

CERTIFICATIONS

- 2-Day Competitive Programming WorkShop In GDSC.
- NPTEL Data Structures Using Python.
- NPTEL Data Structures Using Java.
- Participated in a 4-Day WorkShop and 24 Hour Hackathon on Amazon Web Services.

ACHIEVEMENTS

- Achieved 200 Days Badge 2024 in Leetcode.
- Accomplished problem solver with a track record of successfully trackling over 450+ leetcode challenges.
